WORLD ECONOMIC DEVELOPMENT REGULATED TOKENIZATION BANKERS AUTHORITY INC.

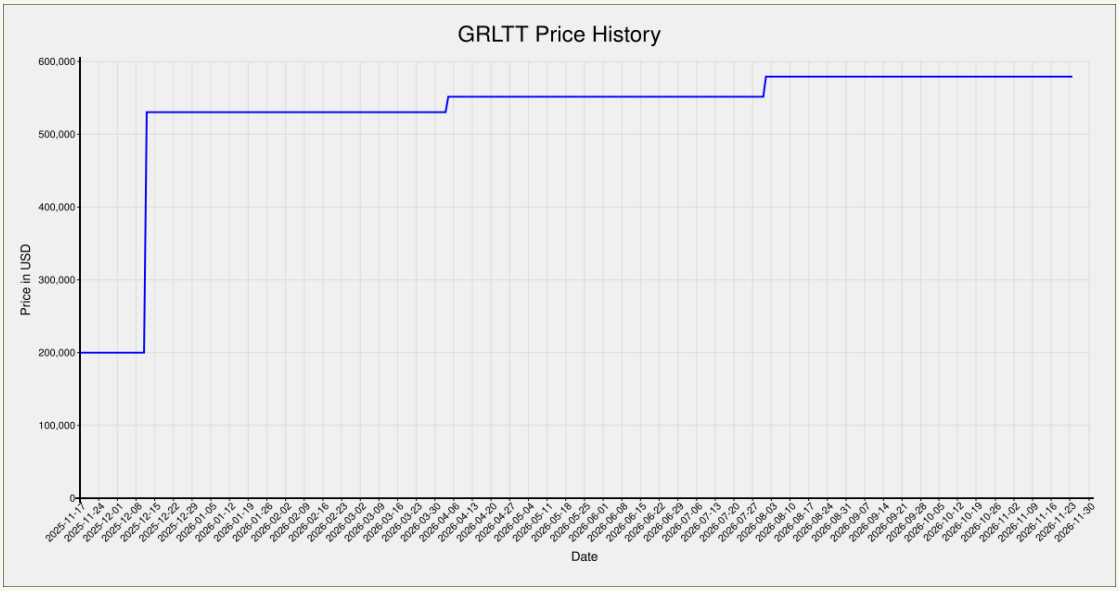

GLOBAL REIT LEGAL TENDER TOKEN

DESCRIPTION

The GRLTT Token (Global REIT Legal Tender Token) is an issuer-defined digital instrument that represents structured economic participation in a diversified pool of international real-estate assets, including income-producing properties, development projects, and contractual real-estate receivables. The issuer establishes the underlying asset composition, the distribution and cash-flow framework, and all applicable transfer or redemption conditions, enabling GRLTT to function as a compliant, contract-based vehicle for packaging, allocating, and transacting value derived from global real-estate holdings.

USAGE

The GRLTT Token is used by real-estate sponsors, asset managers, and capital allocators to package and distribute participation in diversified global real-estate portfolios. For example, a GRLTT issuance may allocate interests in income-producing properties, development projects, or contractual real-estate receivables across multiple jurisdictions. This allows real-estate-linked value to be structured and transacted in a compliant, digital format.
