

# NORTH AMERICAN OIL, GAS AND UTILITIES NAOG TOKEN

## DESCRIPTION

The NAOG Token (North American Oil, Gas and Utilities NAOG Token) is an issuer-defined digital instrument that provides structured economic participation in designated energy-sector assets across North America, including oil and gas production, midstream infrastructure, utility-scale power generation, transmission systems, and related contractual revenue streams. The issuer determines the composition of the underlying asset base, the distribution or royalty framework, and all applicable transfer or redemption conditions, enabling NAOG to function as a compliant, contract-based vehicle for allocating and transacting value derived from North American energy and utility operations.

## USAGE

The NAOG Token is used by energy producers, infrastructure operators, and capital providers to allocate participation in North American oil, gas, and utility assets. For example, a NAOG issuance may represent interests in production revenues, midstream infrastructure cash flows, or utility-scale power operations. This provides a structured mechanism for monetizing and transferring energy-sector value streams in a compliant format.

## TOKEN DETAILS

**AS AT DATE**

2026/02/26

**INCEPTION DATE**

2023/05/18

**WYOMING SOS ID #**

2022-00051043

**ISSUED TOKENS**

30,079,879.2653

**OPENING PRICE**

\$180,000.00

**CURRENT PRICE**

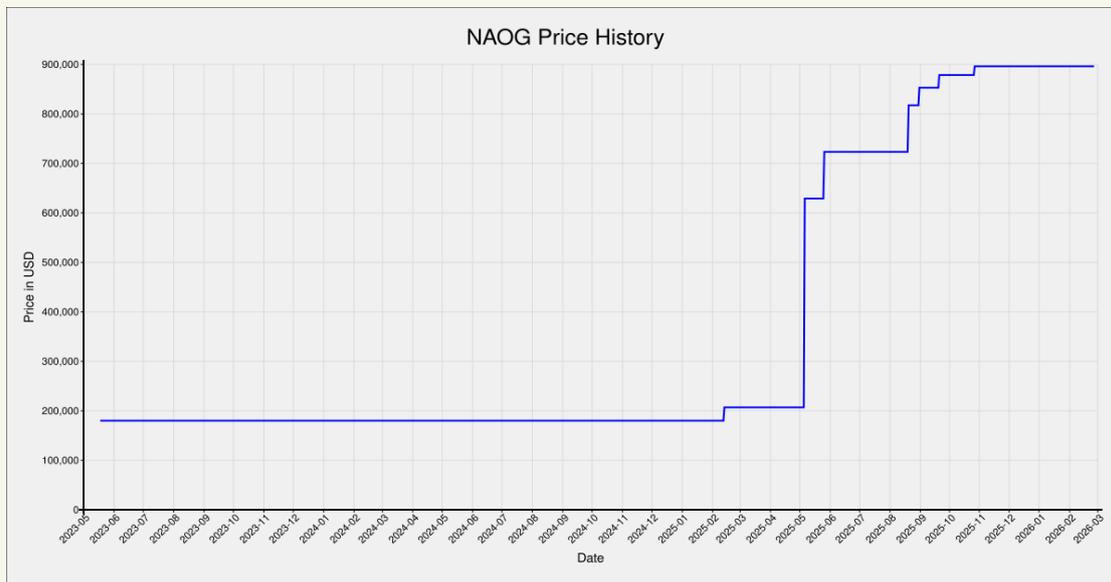

\$896,100.62

**ISSUED TOKEN VALUE**

\$26,954,598,459,163

**# OF TOKEN HOLDERS**
